In addition to this document, you can access our Grant Criteria and FAQs on the Canadian Women’s Foundation website: canadianwomen.org/grants-irp19/

STEP TWO: ACCESS THE ONLINE APPLICATION SYSTEM

Applications for Canadian Women’s Foundation grants are administered through an online platform called IGAM, which you can access here. You will be required to create an account to use this platform using your email address.

Fill out the information in complete detail and be sure that all information is up-to-date. See Organization Overview Advice below for detailed information on completing this part of the online application form.

The online application will guide you through the proposal questions specific to the grant area you are applying for. We have provided prompts for each question in the following pages to help guide you to develop complete and effective responses.

Each question has been designated a maximum word count that will be enforced by the online application platform. If you wish, you can copy and paste answers that you compose in a Microsoft Word document so you can check your word count, spelling, and grammar in advance.

STEP FIVE: COMPLETE THE BUDGET TEMPLATE

As part of the online application system you will be required to complete the Excel Project Budget template provided and detail how funding will be used, including the services/supports you are applying for as part of this granting process.

You do not need to outline the budget for the whole organization or all of your initiatives in this form —please only include the budget for your proposed initiative. See Project Budget Form Instructions below for support on completing the required budget form.

### Investment Readiness Continuum

In particular, where would you place your initiative on the Investment Readiness Continuum?  
- Early Stage Innovation  
- Strategic Impact Focus  
- Impact Sustainability  
- Financial Resilience  
- Investor Ready

The investment readiness continuum is a non-linear spectrum between the conception of an idea and its implementation and investment readiness. Employment and Social Development Canada defines 5 stages in this continuum with different skills and supports required at each stage. Please capture, to the best of your ability, where your initiative is on this continuum.

**NOTE:** This question is for reporting purposes only. We will not be assessing applications based on their current stage and aim to support organizations from all stages of the investment readiness continuum. Social purpose organizations, or enterprise activities, can be in the early or late stages of development and anywhere in between.

**Early Stage Innovation:** Exploration and ideation of the initiative - aligning a proposed solution to an identified need.

**Strategic Impact Focus:** Feasibility analysis and community support development.

**Impact Sustainability:** Business model development, use of data for planning & impact measurement, diversification of funding sources.

**Financial Resilience:** Revenue generation, legal structure (incl. debt & equity), ability to scale and replicate.

**Investor Ready:** Sustainable cash flow and assets, track record for sustainability and networking with prospective investors.

<p>| What skills/competencies does your organization hope to acquire/advance through the Investment Readiness Program? | Early stage innovation: systems thinking, human-centered design, social R&amp;D techniques, ethnographic research, journey mapping, inspired innovation, etc. | Strategic impact focus: enterprise strategy development, tolerance for new types of risk, |</p>
